

## ACTIVITY!

## BUILD IT YOURSELF!

## Chart of Businesses

**Supplies:** paper, pencil, ruler

**Business is part of our everyday life. In this activity you'll organize businesses into a chart so it's easier to see how businesses affect your life.**

**1** Make a chart like the one shown below and fill in column one with several different items you find around a specific room in your house.

**2** Use row one as an example to fill in the rest of the chart.

Item	Product or Service	Business Name	Customer	What need does it fill?
book	product	Nomad Press	children, parents, and teachers	educate kids about the world we live in!

## THINK MORE:

Now go back and consider each item. How would your life or the world be different if the item didn't exist? Can you think of what people used instead of this item before it was invented? Can you do some research and find out who invented the item and when it was invented? Is there an interesting story behind it?
